DETAILED ACTION

Status of Claims

Claims 6-8 and 26-34 are pending. Claims 1-5, 9, 21 and 35 have been cancelled, and claims 10-20 and 22-25 are withdrawn.

Upon further review of the instant claims and prior art and supporting arguments in the brief filed on 05/27/04 and 06/07/04 respectively, the final rejection of claims 6-8 and 26-34 have been withdrawn. However, the following new rejection applies.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 31 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The amendment filed 06/07/04 and proposed amendment filed 07/23/04 respectively "in which the OH group of the carboxyl function has been replaced by a good leaving" added to claim 31 lack antecedent basis in the specification and as such renders claim 31 indefinite. Additionally, amended claim 6, line 3, after the structural formula has a typographical error, "ana" should be ---an---.

New Claim Objection

The amendment filed 06/07/04 and 07/23/04 respectively is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The

Art Unit: 1626

added material, which is not supported by the original disclosure, is as follows: "in which the OH group of the carboxyl function has been replaced by a good leaving."

Applicant is required to cancel the new matter in reply to this office action.

Claims 6-8, 26-30 and 32-34 are allowed.
